BUMPER PART NUMBERING & OPTIONS GUIDE

How our BUMPER part numbering system works:

We use a "smart" part number. Every digit has a meaning, which indicates how we build your bumper. Make sure all digits are correct to have your bumper built correctly!

Example Part Number:

HC – 0010 – 06 – 21BY

TRUCK MAKE
H = Peterbilt

TRUCK MODEL
C = Model 379

Search the following bumper pages to find this two digit code.

CUTOUTS
0010 = mounting holes and tow hole. Visit the bumper pages in this catalog for available cutout options.

END STYLE
06 = 18 inch Rolled End Square. See this chart for end style choices. Varies by make/model. See bumper pages.

OPTIONS
21BY = 21 open Bullseye 3/4 light holes. No code needed here if the rest of the part number completes your bumper. See p. 88-91 for some options.

TURBOWING

THE TURBOWING ADVANTAGE

"The Original Turbowing" is the Grand-Daddy of all air deflectors. This size, shape and design is today's air deflector of choice and will be for another 30 years. Impeccable over the road performance records make it one of the most popular accessories in the industry today, because Turbowing works. Proven efficiency saves truckers thousands of dollars in fuel costs each year. Get started today!

DURABILITY:

Turbowing "Tough" is the term unmatched in the trucking industry today. A rugged over-the-road environment remains a real-life "Tell-tale" test for big rig accessories. Some air deflectors are giving in to this harsh reality, Turbowings remain solid and continue to prove their worth, trip after trip!

FUNCTIONAL:

Testimonials from owner operators have shown consistent fuel savings of approximately ***10% up to 19%***. for the average owner/operator, this means payback for their Turbowing investment in less than six months.

EXAMINE THIS LIST OF FEATURES OFFERED ONLY BY STAINLESS COMPANY:

- Highest quality materials and hardware.
- Pre-formed body panels to reduce undue stress on rivets.
- Sleeper specific brackets attach to the strongest points of the sleeper at the factory-built supports.
- Fixed angle brackets ensure the correct angle for deflection of air, no fooling around.
- Full application range to fit all popular sleeper sizes in flat-top and raised roofs.
- Paccar approved, one of the only wing-styled air deflectors available through Paccar's parts division.
- Tested and proven so you gain every time.

TURBOWING

PICKUP TRUCK WINGS

HIGHLIGHTS OF THE STAINLESS LINE OF AIR DEFLECTORS

- 30% reduction in drag.
- Wings are available in mirror polished stainless steel.
- Reduced "bug splatter" on the front of the trailer.
- Enhances stability in windy situations.
- Increased towing speed.
- The ability to pass other large vehicles without getting bogged down or blown around from on-coming wind.
- No drilling required with easy on and off clip mount system. (For most full size domestic pickup trucks 3/4 ton and up)

DESIGNED TO IMPROVE YOUR TOW PACKAGE

Towing a 5th wheel trailer, gooseneck race car trailer with a pickup truck or big rig semi truck means you are fighting the wind. STAINLESS builds a stylish wing to deflect air over the trailer and maximize fuel economy every time you tow.

Going camping? Want to get better fuel mileage towing on the way to and from your destination but just want the most economical way to save fuel? Use STAINLESS air deflectors.
